Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 28-38 are subject to examination. Claims 1-27 are cancelled.

Election/Restrictions

2. Newly submitted claims 28-38 are directed to an invention that is independent or distinct from the invention originally claimed (cancelled claims 1-27, Group I invention) for the following reasons:

The newly presented claims 28-38 of Invention Group II, are drawn to an ATM which contains web browser to provide user access to a public Internet by blocking access by the web browser, and the web browser sending requests over the public Internet to an agency, which responds to the requests by sending actuation messages to the ATM over the public Internet along with a financial switch, and a web server which communicates with the public Internet, and the web server providing a response to the actuation message in order to handle printer instructions and the ATM to print particular type of information on paper or to utilize the public Internet for a print-controller for diverting the print material, which the Invention Group I is lacking. The Group II invention is classified in Class 709 subclass 219.

Since, inventions I and II have different functions, different modes of operation and they have different effects, these inventions are distinct for the reasons given above, and the search required for Group II is different and not co-extensive for examination purpose, because it would require different search on PTO's classification class and subclass.

Also, PTO does not permit shift to another invention in the middle of the invention being prosecuted, as MPEP 819, states the following:

Art Unit: 2154

The general policy of the Office is not to permit the applicant to shift to claiming another invention after an election is once made and action given on the elected subject matter. Note that the applicant cannot, as a matter of right, file a request for continued examination (RCE) to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined (i.e., applicant cannot switch inventions by way of an RCE as a matter of right). When claims are presented which the examiner holds are drawn to an invention other than the one elected, he or she should treat the claims as outlined in MPEP § 821.03.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 28-38 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
